

I am a resident of Indiana who is on the no call list. Life has been wonderful with out unwanted call from telemarketers. Please do not change our law. I will not buy anything from anyone who phones my home unwanted. It will not help any bussiness. please consider the common person's desire for privacy and PEACE in our own homes. It is more offensive to me to have telemarketers phone than to see Janet Jackson's private stuff and t.v. FCC please make a decision for the private citizen and not for the big bussiness. Thank You.
